Accessing Customer Lookup

Customer Lookup is found under **Database Insights** on the left side navigation menu.

Searching the database

Use the Search bar to search for any individual in the database. Ascent360 will pull partial matches for your search criteria. Alternatively, use the **Advanced Search Options** to search by one or more specific fields to narrow your search. Click **Basic Search Options** to return to the single search bar.

State <input type="text"/>	Zip Code <input type="text"/>	Ascent360 ID <input type="text"/>	

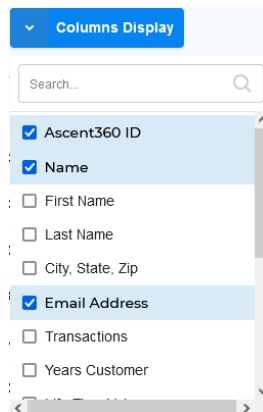

Search
Clear

Browse Results

A maximum of 500 results will be returned for any one search. View the total number of individuals returned by a search in the upper left corner. If your results return more than 500 results, it is recommended to refine your search using the **Advanced Search Options**.

Adjust Columns

Use the **Columns Display** drop-down on any table within **Customer Lookup** to add or remove columns from the table display.

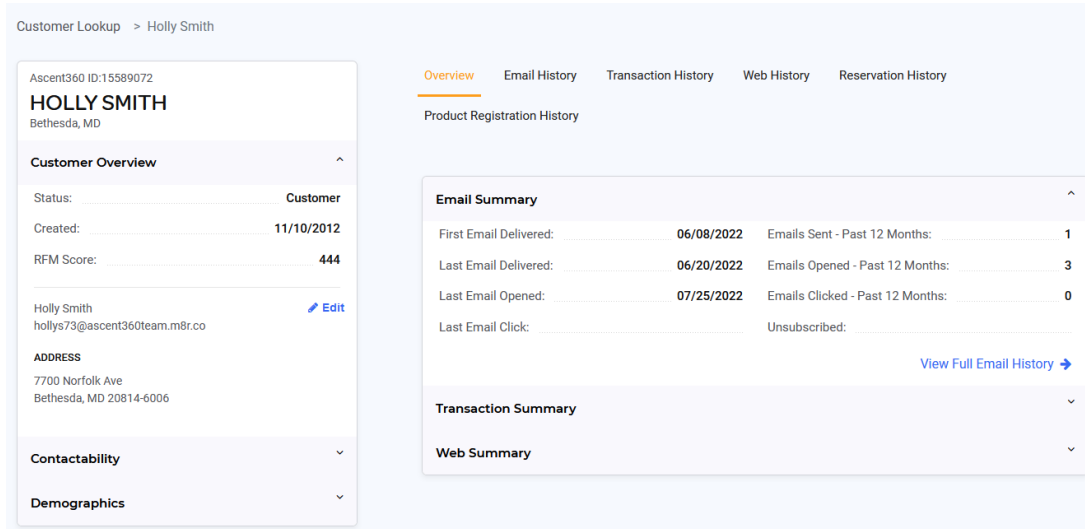

- Adjust the column width on the results table by hovering on the dividing line between columns and clicking & dragging.
- Click and drag any column header to reorder the column display.
- Click any column header to sort results ascending or descending.

Export Results

Click the **Export** button next to the **Columns Display** to immediately send a file of the returned results to **File Manager**. The file will be dropped in a folder labeled **Customer Lookup** within the active user's folder.

View Individuals

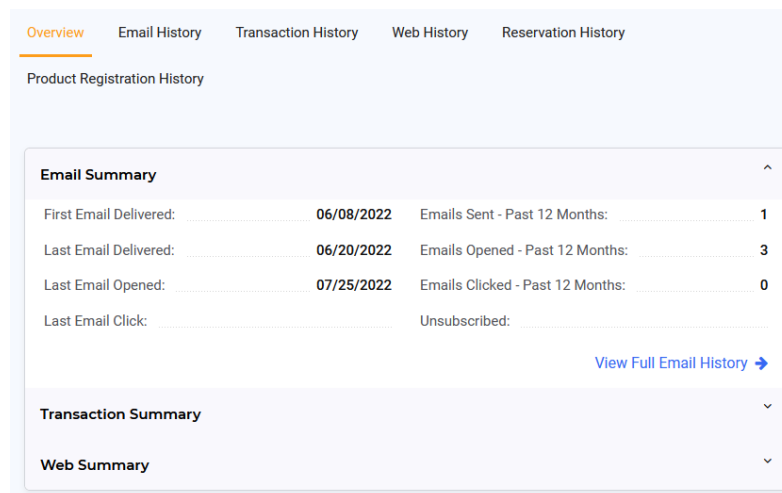

Once your search results are returned, you can view details of a specific customer from the list of customers returned by the search. To select a customer from the list, click anywhere on the row that corresponds to the customer. The **Customer Overview** page will open.

On the left side of the Customer Overview Page, you will find basic information about the selected customer. You'll see contact information, Customer or Prospect Status, RFM, Contactability, and Demographics. Click the **Edit** button to make changes to details relating to the individual.

Email History, Transaction History, Web History, Reservation History, Product Registration History

On the right side of the **Customer Overview** page, you'll see sections for aggregated information on Email, Transaction, Web, Lodging or Other data in your CDP. Available sections and data population will vary based on the type of information you have in your database.

If you do not see any data for Web History, you're likely not utilizing our web tracking feature. If you want additional

information, [please click here](#) or contact our support team at support@ascent360.com.

Navigate between categories by using the top tabs or by clicking the “View Full Transaction History” button at the bottom right.

The detail pages allow you to see specific information for each interaction a customer has made – such as all transactions on file or the emails they’ve opened. These will be shown on the respective detail pages.

Search these pages for specific transactions or interactions utilizing the search bar at the top.
