

How to link to an Ascent360 Landing Page in an Email Design

- **Linking Text**

Emails > Designs or New Template

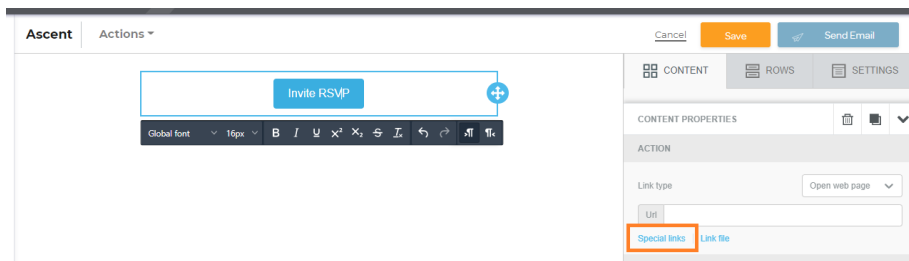

- On the email building canvas, click or highlight the location for the Landing Page link to be inserted
- Click Special Links > Landing Pages > Select the page

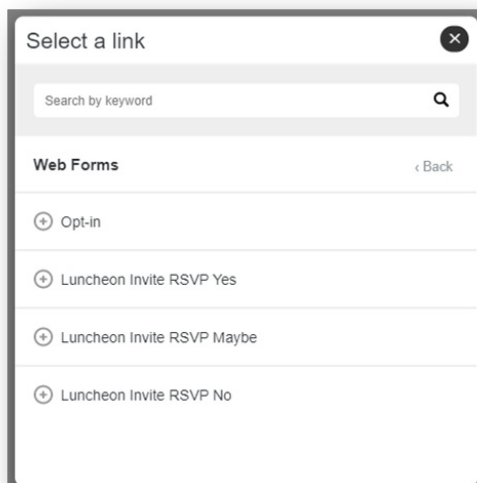

- **Linking a Button or Image**

Emails > Designs or New Template

- On the email building canvas, select the button for the page link to be inserted
- On the right settings tab under the Actions menu, select special links under the URL

- Click Landing Page, and select the page you would like to link
