

Overview:

The August 2nd software release is an exciting update for the Ascent360 Platform.

We updated more than just colors - the user interface and user experience throughout the platform has improved. We added new features so you can more easily see the results and revenue your marketing efforts are driving.

The changes in your account depend on if you use **Ascent360's email features** or have a **third-party email integration**.

Use the links below to read more about the changes to your Ascent360 account.

If you use **Ascent360 email features** please read:
