To check if your domain(s) successfully have DMARC in place, follow these steps.

1. Navigate to https://mxtoolbox.com/dmarc.aspx

2. Enter your domain into the search box, then click the orange "DMARC Lookup" button.

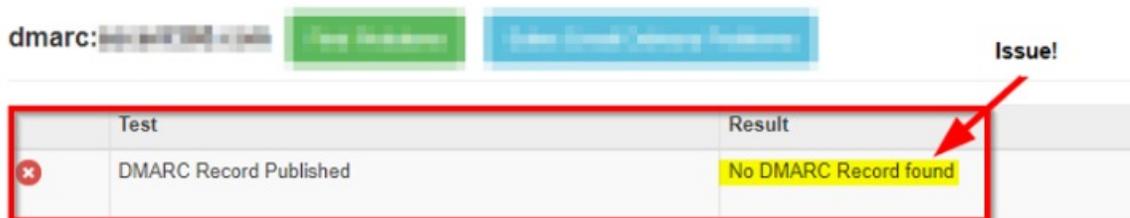

3. A successful DMARC result will look like this:

v=DMARC1; p=reject; sp=none; rua=mailto:dns@ascent360.com; ruf=mailto:dns@ascent360.com

**The green background here indicates "success". You should also see the Tests in a list below, all with green checkmarks.**

The green "box" with the DMARC code within indicates that you're good to go!

4. An **unsuccessful** result will look like this:

| | Test | Result |
|---|---|---|
| ✖ | DMARC Record Published | No DMARC Record found |
