

In Ascent360's Text Design Library there are nine **email design statuses** based on how the texts are being sent.

1. **Draft:** A new or unpublished design that has not been sent.
2. **Completed:** A text message that was once Recurring but the configured End Date has passed. This text is no longer being sent.
3. **Paused:** A recurring text that has been manually paused. The design itself can be edited, but the sending configuration cannot be edited.
4. **Recurring:** A design with an active schedule occurring on a daily, weekly, monthly, or yearly cadence.
5. **Scheduled:** A text that is scheduled to be sent in the future. Scheduled texts can transition to Sent or Recurring based on the recurrence configuration.
6. **Sending:** A text that is actively sending. Ascent360 batches text message sends, so depending on the size of the recipient list, a text may be in the Sending status for up to two hours. Once the send is complete, it will either transition to Sent or Recurring based on the recurrence configuration.
7. **Sent:** A text sent one time.
8. **List Send:** A text sent as part of the List Send process. See [Send to a List](#)
9. **Triggered:** A design assigned as a confirmation for a form.
